# UV COATING

COOLING EFFEKT  
COOLING EFFECT

Das elfenbeinfarbene Coating auf der Innenseite des Schirmes sorgt für maximalen UV-Schutz und macht den zero Ultra Sun zum tragbaren Sonnenschirm in der Tasche. Die Farbkombination aus Elfenbein im Inneren und modischen Uni-Farben außen verleihen dem Schirm besondere Eleganz.

Ivory coating on the inside of the umbrella maximizes UV protection and makes the zero ultra sun a portable sun umbrella in your pocket. The color combination of ivory on the inside and fashionable uni colors on the outside make the umbrella particularly elegant.

# DERBY - HIT SERIE

FRISCHE FARBEN UND NEUE GESTELLE  
FRESH COLORS NEW FRAMES

Die Gestelle der HIT Serie wurden weiterentwickelt und das Sortiment erneut ausgeweitet. So verfügt der Hit Mini durch zwei neue Fiberglasschienen nun über windproof Eigenschaften. Der beliebte Hit Magic erstrahlt in einer eleganteren Form, durch die Erweiterung des Schirmdachs mit einem zusätzlichen Segment. Ein ganz besonderer Hingucker ist der Hit Golf, der durch seine 16 Segmente eine ganz besonders edle Form annimmt.

The frames of the HIT series have been further developed and the range expanded again. The Hit Mini, for example, now has windproof properties thanks to two new fiberglass rails. The popular Hit Magic shines in a more elegant form, thanks to the extension of the umbrella roof with an additional segment. A very special eye-catcher is the Hit Golf, which takes on a particularly elegant shape thanks to its 16 segments.
