HONOUR YOUR SUCCESS

A Message from the Founder

“To me, building a company is like a big hike in the mountains. While hiking, you start your route without a map, and you keep going until you get to the top. Along the way you will encounter gaps and rocks, which will make you take a step back or will force you to take a different path to get back on the right track. During this mountain hike, keeping your ‘focus’ is one of the most important aspects. Therefore, in 2013, I decided to take a new path to get back on the right track and to focus completely on The Chesterfield Brand. While doing this I set a new goal: creating a stylish and timeless leather collection that is affordable for a very broad audience.

To achieve this, we believe that the key to success is a fair price-quality ratio and above all: to make the customer the centre of our focus.”

– Koos Hoving CEO

The Brand

With The Chesterfield Brand, we want to prove that things can be done differently and that the combination of affordability and quality does exist. By focusing on both our product and conditions under which the people, that are involved with our production process, live and work in, we create a situation that benefits all parties optimally.

Alongside a flawless eye for great design and a commitment to affordability, our designs are based on the following principles: independence, ambition, and the rewards brought about through hard work, conviction and a fearless spirit. All of this leads to our inspirational motto: “Honour Your Success” - because above all, you deserve to look this good. #honouryoursuccess

The Product

Leather a very fascinating product. You must see, smell and feel it, only then you can judge whether you have a nice piece of leather in your hands. Most products of The Chesterfield Brand we use cow leather, that is processed in different ways. This process is very determinant for how a bag will ultimately look like.

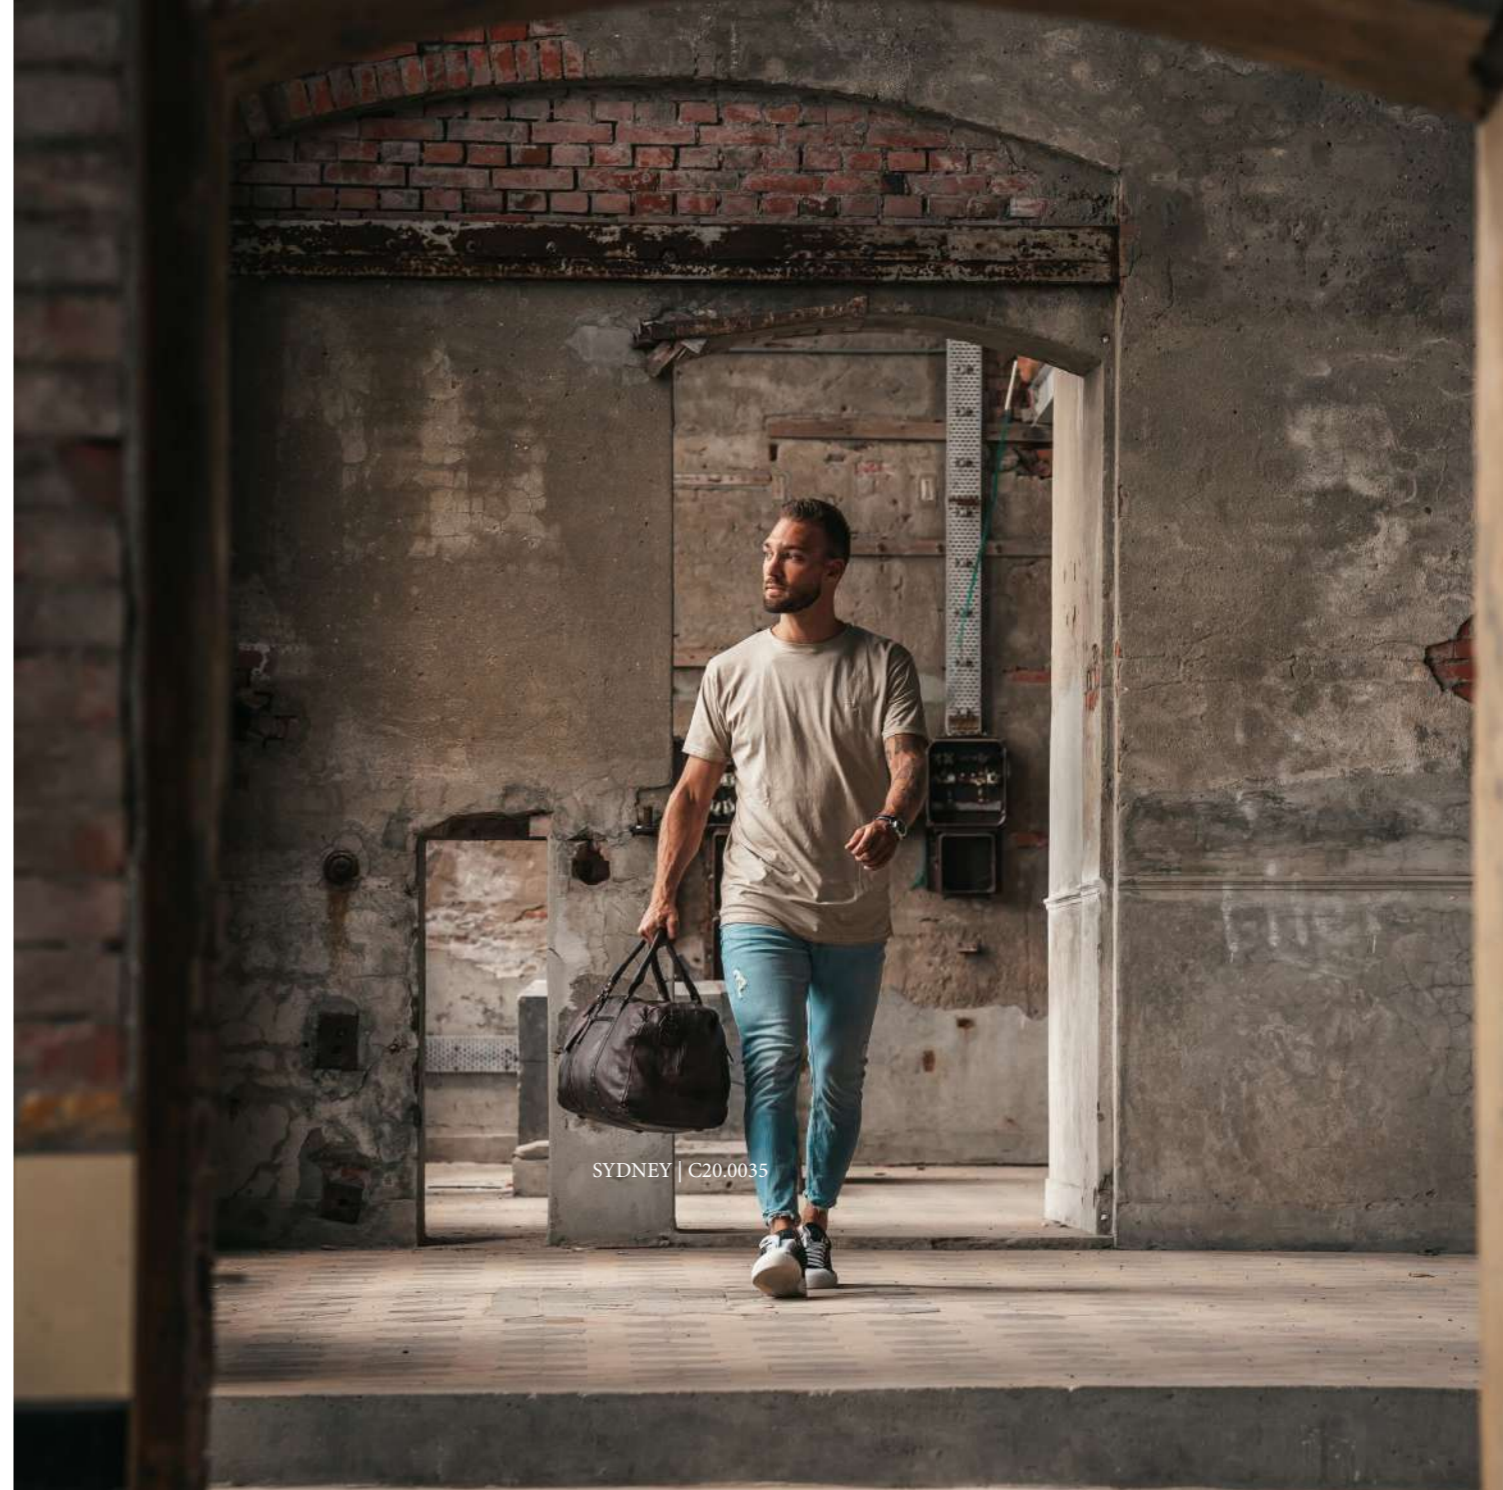

Through years of cooperation and intensive contact, we see our leather producers as a partner. There is a direct connection with the production facility. Hence, The Chesterfield Brand has a major influence on the quality and durability of the leather. This quality can only be guaranteed by being closely involved in the process in which a hide is made into a bag. No leather hide is the same which makes every bag unique. And a fun fact: our CEO Mr. Hoving designs all our bags himself!

Our Team

The Chesterfield Brand is doing well and that is why our team is growing. We started with a handful of people, and now there are about 23 people working for our beautiful company. You might know some of them because they visit you (the representatives) or because you occasionally speak to them by telephone or e-mail (Back office). We also have a few other important departments: Logistics, Finance, Customer Care, Purchase and Marketing. Together we form The Chesterfield Brand and we are happy to assist you every working day!

COW WAX PULL UP LEATHER

At The Chesterfield Brand, Cow Wax Pull-up leather is the most frequently used type of leather. After pressing, the leather is manually coloured with aniline dyes impregnated with natural oils and waxes instead of paints and pigments. This soft finish ensures that these dyes will not remain on the skin, but are pulled into its pores, creating the natural vintage look. As a result of waxing rather than spraying, we created a very durable product that maintains its quality and colour.

VEGETABLE TANNED COW LEATHER 'BLACK LABEL'

This type of leather is used for the Black Label collection of **The Chesterfield Brand**. Vegetable Tanned Cow leather is the most expensive to make, because it is vegetable-tanned, i.e. it is completely free of chemicals and only natural products are being used. What gives a Black Label its own character is the extensive 'Pieces-dying technique'. Black Label products are sewn together before treatment, including lining, metal accessories and zippers. Then as a complete bag, it is placed in a bath of various natural products so that everything is processed at the same time. After this, each bag is hung to sundry and then dyed and polished by hand. This technique ensures that every product gets a unique character because there is always a difference in the hide's absorbency. This technique is also the reason for the cotton lining in these products, the cotton lining is also coloured by the main processing and is also the only type of fabric that can be combined with the 'pieces-dying technique'.

VEGETABLE TANNED COW LEATHER SOFT CLASS

The Soft Class is our high class vegetable tanned leather collection. This cow leather has a special effect because it is thicker than our other leather types. Because the leather is split in a special way, it gets up to 20% more volume. In addition, the Soft Class is 'finished' leather, which means that it is painted in the right colour. This, together with a flexible painted counterpart, creates a more modern and 'clean' look.

ANTIQUÉ BUFF CRUMBLÉD LEATHER

This type of leather is made of buffalo leather. Buffalo hide is generally a harder type of leather, but in collaboration with the tannery **The Chesterfield Brand** has developed a special treatment process, which keeps it supple. Since with machine spraying only a solid effect is possible, this type of leather is handsprayed in the correct colour. This creates the so-called 'two-tone' effect.

WASHED VINTAGE COW LEATHER

This type of leather is processed differently than the other leather types in our portfolio. After the leather is painted into the right colour, the bag is sewn together and 'washed' in a special washing machine. Subsequently, after drying, the bag is filled with paper and polished which creates the leather its shiny glow.

WASHED WAXED COW LEATHER

Washed Waxed is our newest leather type. By combining techniques from our popular leather types Wax Pull Up and Washed Vintage, we have been able to create a collection with a commonly desired character. The wax technique used gives a pleasant soft-touch hand feeling. The processing of this leather type largely matches our existing Washed series, but it is in addition manually waxed with natural wax so that the vintage look remains intact.

RFID

An RFID chip is integrated in almost all your cards. This chip allows you to make a contactless payment. With the introduction of contactless payment, various bodies such as the consumer association and various banks already warned about a new phenomenon: digital pickpocketing.

Soon the first wallets and covers with aluminium foil around it appeared. Aluminium foil stops radiation and prevents contactless payment. Soon after the first metal cases with RFID protection were marketed. Not much later, the first wallet with RFID protection was sold. The development of RFID protection has developed to the point that it can be incorporated in wallets by means of a foil. With the introduction of our brand in 2013, we decided as one of the first brands to provide our full range of leather wallets with RFID protection.

DENVER COW LEATHER

This type of leather is full-grain leather with a strong milling effect resulting in a more classical look and feel. The slight pull-up effect gives a robust yet soft-touch result.

For the best in-store presentation of our brand in your shop you may consider our shop-in-shop possibilities. As you can see, we offer standard sized panels, which you can put in different variations to what's best looking in your shop.

If needed, we can easily modify the different parts to keep up with all your wishes and custom preferences.

As most of you know, we consider our pricing level as a very important subject. That is the reason why we are willing to pay 50% off your shop-in-shop booth to motivate you to upgrade your interior and build a long-term relationship with us. Please contact your representative for all your questions around this subject.

We look forward to hearing from you!

Yours sincerely,
The Chesterfield Brand

ABOUT THE CHESTERFIELD BRAND FOUNDATION

The Chesterfield Brand Foundation is committed to improving the quality of life in India. The country where The Chesterfield Brand's products are produced. With funds, the foundation supports various projects aimed at improving working, living and educational conditions in the country. The foundation also organises various events throughout the year to raise awareness about the situation in India and raise funds for the projects. By working with a local partner in India, we can be sure that the funds reach the right places. We are in close contact with this partner and visit the project areas several times a year. During these visits, we engage with local people to find out what the real needs are. For example, in 2020 we contributed to the construction of a primary school and the following year raised funds to provide schoolchildren with food parcels.
